

### Quality & Certification

BONOMINI SRL is certified ISO 9001 since 2011. It has a laboratory equipped with test benches certified for the production testing and inspection, according to the EN 274 standard. Therefore, each product is conceived, analyzed, designed and developed in every technological aspect by BONOMINI SRL itself. This result is a clear advantage in terms of quality acquired by the product, kept under constant control in every step of its production and enriched thanks to practical advices suggested by both Customers and Installers.

The company also has a technical travel staff, in constant contact with the installers, whose task is both: to promote the product and also to collect the observations and suggestions that are expressed on the construction sites on daily basis. The spirit of technical innovation, that has always distinguished the company BONOMINI SRL, is the basis for the significant development of the company.
